

Network protocol licensees

Notes

1. There are more Cobranet users but not all need to be licensees so it is not possible to list all
2. About half Avnu members are ProAV, the rest are automotive, networking or semiconductor
3. Dante licensee numbers are only occasionally announced, hence the ungranular line

Cobranet data from Cobranet website

Avnu data from Avnu press releases

Dante data from Audinate press announcements

Ravenna data from Ravenna press announcements
